

Environmental & Sustainability Policy Statement

Our Position

We believe it is our responsibility to do right by all stakeholders at all times. Our mission is to maintain an unrivalled standard in terms of integrity and values which includes achieving good environmental practice and operating in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations. Through our Code of Business Ethics, Environmental and Sustainability Policy, responsible supplier management, employee and charitable initiatives, we place continued importance on our role as a responsible contributor to wider society.

Our policy is to:-

- Demonstrate our commitment to internationally agreed standards and requirements for an Environmental Management System by maintaining our ISO 14001 certification;
- Wholly support and comply with the requirements of current environmental legislation;
- Minimise our waste by following the principles of the 8Rs – Rethink, Refuse, Reduce, Repair, Reuse, Repurpose, Rot and Recycle;
- Minimise energy and water usage in the course of our business in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable;
- Operate and maintain company vehicles with due regard to environmental issues as far as reasonably practical and encourage the use of alternative means of transport and car sharing as appropriate;
- Apply the principles of continuous improvement in respect of air, water, noise and light pollution from our premises and reduce any impacts from our operations on the environment and local community;
- As far as possible purchase products and services that do the least damage to the environment and encourage others to do the same;
- Carry out due diligence on suppliers and customers to ensure their environmental policies and commitments are demonstrably aligned with ours;
- Assess the environmental impact of any new processes or products we intend to introduce in advance;
- Ensure that employees understand our Environmental and Sustainability Policy and our ISO14001 certification and conform to the standards it requires;

- Address complaints about any breach of our Environmental Policy promptly and to the satisfaction of all concerned;
- Update our Environmental Policy annually in consultation with employees and other interested parties affected by our undertaking.
